

# OT G2

IP66 Power supply

OSRAM

Dimmable 0-100%

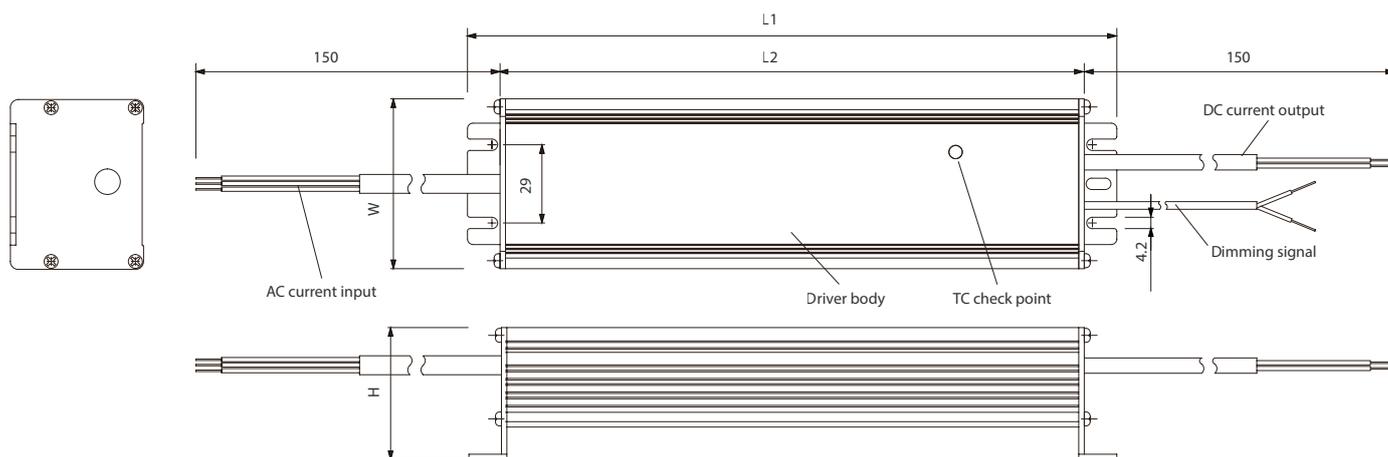

## DC 24V specifications OT G2

Reference	Power (W)	Current (A)	Input voltage (V)	Operation temperature (°C)	Efficiency/ Power factor	Operation condition	Standards	Dimensions (L1xL2xWxH mm)
OT30/100-200/24-G2	30	DC 24V 1.25A	AC 1000~200V	-30~60°C	83% / 0.95	IP66	CE, CCC, PSE	195 x 174 x 51 x 33
OT60/100-200/24-G2	60	DC 24V 2.5A			85% / 0.95			200 x 176 x 63 x 49
OT90/100-200/24-G2	90	DC 24V 3.75A			85% / 0.95			219 x 195 x 63 x 49
OT150/100-200/24-G2	150	DC 24V 6.25A			85% / 0.95			239 x 215 x 63 x 49

When you choose a power supply, for safety and rating life reasons, power supply should not support more than 80% of wattage capacity.

## Dimensions

Power supply made by Osram GmbH, comply with CE, CCC and PSE standards.  
For more information about the products, please consult the web site: [www.osram.com](http://www.osram.com)

# OT G3

IP67 Power supply

OSRAM

Dimmable 0-100%

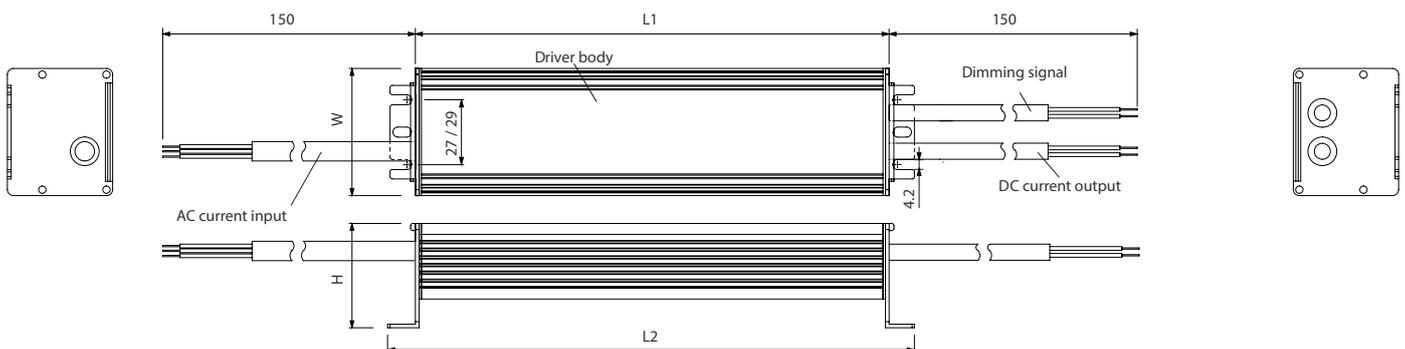

## DC 24V specifications OT G3

Reference	Power (W)	Current (A)	Input voltage (V)	Operation temperature (°C)	Efficiency/ Power factor	Operation condition	Standards	Dimensions (L1xL2xWxH mm)
OT30/100-200/24-G3	30	DC 24V 1.25A	AC 1000~242V	-40~70°C	83.5% / 0.95	IP67	CE, CCC, PSE	195 174 x 51 x 33
OT60/100-200/24-G3	60	DC 24V 2.5A			86% / 0.95			167 x 145 x 53 x 43.5
OT90/100-200/24-G3	90	DC 24V 3.75A			87% / 0.95			202 x 180 x 53 x 43.5
OT150/100-200/24-G3	150	DC 24V 6.25A			89% / 0.95			217 x 195 x 53 x 43.5

When you choose a power supply, for safety and rating life reasons, power supply should not support more than 80% of wattage capacity.

## Dimensions

Power supply made by Osram GmbH, comply with CE, CCC and PSE standards.
